1 Event Overview

1.1 Introduction

Yangcheng Lake Hand Launch Glider Open (YCH F3K Open)

The YCH F3K Open will be held at the Yangcheng Lake Peninsula Tourist Resort, a paradise for glider enthusiasts. The venue offers expansive airspace, convenient transportation, a beautiful natural environment, and comprehensive supporting facilities.

This year's event welcomes several internationally renowned pilots. The official competition will span three days, from November 1 to 3, 2025.

The YCH F3K Open is organized by the Jiangsu Provincial Aeronautical Sports Association, with co-organization and event management provided by the Suzhou Aeronautical and Model Sports Association, together with P3K/F3K enthusiasts from across China.

1.2 Introduction to the Jiang Su Aero Sports Association

The **Jiang Su Aero Sports Association (JSASF)** is a province-wide, public-oriented organization dedicated to the promotion and management of aeronautical sports in Jiangsu. It oversees and advances multiple disciplines, including powered flight, gliding, parachuting, aeromodelling, and ballooning. As the sole official representative body of Jiangsu Province, the association maintains direct affiliation with the **Aero Sports Federation of China (ASFC)** and is responsible for organizing Jiangsu athletes to participate in major national and international competitions.

Key Responsibilities:

1. **Strategic Development & Competitions** – Formulating the overall development plans and competition systems for aeronautical sports in Jiangsu; organizing and managing provincial-level events; and certifying, submitting, and recognizing athletes who achieve or break national and world records.

2. **Team Selection & International Exchange** – Selecting, forming, and dispatching representative teams to take part in domestic and international competitions, thereby enhancing the competitive level and international profile of Jiangsu aeronautical sports.
3. **Training & Certification** – Conducting training, evaluation, and certification for athletes, coaches, referees, and sports instructors, in order to strengthen professional skills and overall competence within the aeronautical sports community.
4. **Pilot & Aircraft Management** – In accordance with the regulations of the General Administration of Sport of China and relevant authorities, undertaking training, licensing, and examinations for pilots and ground crew, as well as handling certification procedures for aircraft inspection, test flights, and airworthiness applications.

In addition, the association places strong emphasis on youth and public education, actively promoting aeronautical knowledge through science outreach activities and mass-participation events. It provides enthusiasts with information, materials, equipment, and technical services, while also summarizing and promoting best practices to encourage the improvement and innovation of aeronautical equipment.

JASA is also committed to strengthening exchanges and cooperation with the **Fédération Aéronautique Internationale (FAI)** and aeronautical organizations worldwide, showcasing the vitality and achievements of Jiangsu's aeronautical sports on the international stage.

1.3 Introduction to the Aero sports & Model Sports Federation of Suzhou

Founded in 2003, the **Aero sports & Model Sports Federation of Suzhou (AMFS)** is dedicated to the training and development of aeronautical and model sports. In 2009, under the guidance of the Suzhou Municipal Sports Bureau and the Suzhou Sports Federation, the association received official municipal certification. Its leadership team is composed of experts and educators devoted to public service and the promotion of model sports.

Headquartered at the **Suzhou No. 3 Youth Amateur Sports School**, SAMSA operates five technical committees—Aeromodelling, Ship Modelling, Car Modelling, General Popularization, and Unmanned Aerial Vehicles (UAVs)—as well as an executive secretariat.

The association actively organizes competitions and training programs to promote model sports throughout Suzhou. It currently has **92 group members and 7,680 individual members**. With the strong support of the Sports Bureau, the Sports Federation, and the No. 3 Youth Amateur Sports School, SAMSA plays a vital role in training, promotion, and event organization, making important contributions to the advancement of aeronautical and model sports in Suzhou.

1.4 Introduction to the Yangcheng Lake Peninsula Tourist Resort (YCH)

The **Yangcheng Lake Peninsula Tourist Resort (YCH)** is located in the northern part of Suzhou Industrial Park, bordered by the Loujiang River in the south, the Lujing River in the west, and the Yangcheng Lake boundary line to the east and north. Covering an area of **95.55 square kilometers** with a planned population of **397,000 residents**, the resort is designed around three major innovation hubs: a corporate headquarters base, a national-level tourist resort, and the Sino-Singapore Eco-Tech City. It aims to become a distinctive destination characterized by strong innovation capacity, abundant resources, dynamic enterprises, vibrant cultural vitality, and an outstanding ecological environment.

The **Yangcheng Lake Peninsula Tourist Resort of Jiangsu Province** is the only **National Tourist Resort** located within a national-level economic and technological development zone. The total designated area is **24.39 square kilometers**, of which about **9 square kilometers** is water. In recent years, guided by the strategy of “all-for-one tourism” and aligned with the high standards of a national-level resort, the development concept of “**Tourism + Sports + Health**” has been actively pursued. Building upon existing attractions such as Huayi Brothers Movie World, Bicester Village Suzhou, and premium retirement communities, the resort has also become a venue for representative national-level sporting events, including the **China Cycling Race, National Orienteering Competitions, and National Aeromodelling Championships**. This integration has steadily advanced the combined development of culture, sports, and tourism.

The resort has received numerous accolades, including:

- “**Best Holiday Destination of the Year 2017**” by *China National Travel*,
- “**Most Popular Tourist Resort**” at the 2nd Asian Tourism Red Coral Awards by *21st Century Business Herald*,
- Selection by the China National Parks Association as one of the “**Top 100 Cycling Routes in China.**”

It is also the only site in Suzhou recognized by both the Jiangsu Provincial Tourism Bureau and the Jiangsu Provincial Sports Bureau as a **Provincial Demonstration Base for Sports Tourism**.

1.5 Competition Rules

- 1) The competition will be conducted in accordance with the **Fédération Aéronautique Internationale (FAI) F3K Rules, 2024 Edition**.
- 2) **Competition Language:** All official score sheets and audio announcements will be provided in English.
- 3) **Awards: Individual:** Trophies will be awarded to the top three pilots in each category (U12, U14, U18, OPEN, and 60+).
Team (OPEN): Trophies will be awarded to the top three teams.
- 4) **Radio Frequency Control:** Only **2.4 GHz equipment** is permitted.

1.6 Local Regulations

1.6.1 Camping, Swimming, and Tree Climbing Prohibited

For the safety of all participants, camping, swimming, and similar activities are strictly forbidden on public lawns in accordance with venue management regulations.

In the event of an aircraft falling into the water or becoming stuck in a tree, recovery will be carried out only by designated personnel authorized by the organizers.

Any accidents or incidents resulting from violations of these rules shall be at the sole risk of the competitor.

1.6.2 Arbitration

A paid arbitration system will be applied. Competitors may submit unedited video evidence to the Arbitration Committee to challenge results (limited to the same competition day).

1.6.3 Registration

1. Registration deadline: **October 10, 2025**.
2. Registration will be considered valid only after both the official registration form and payment are received.
3. Eligibility: Open to competitors from **all countries**.
4. Maximum number of participants: **100 pilots**.

1.6.4 Competition Groups

Awards will be presented in five categories: U12, U14, U18, OPEN, and 60+.

- During the competition, **U12 and U14 categories will be combined into one group (wingspan < 1 m)**, while other categories will be randomly grouped.
- The **U12, U14, and U18 categories** will complete **10 scoring rounds**, with the award ceremony held on the afternoon of **November 2**.
- On **November 3**, competition will continue for the **OPEN and 60+ categories**.
